

Health, Weight & Nutrition

The test that will truly change your life forever! Analyzing over 110 genetic variations to give you a unique insight into the real you. This once in a lifetime purchase will guide on how to live your best life including a detailed overview of the foods, nutrients and medications that can either extend your life or drastically reduce it.

£2,795*

Beauty, Weight & Nutrition

We all want to look and feel our best, through understanding your genetic make up and how other internal and external factors influence your physical appearance you'll never again waste time and money on faddy diets or the latest beauty regimes that always fail to deliver the promised results.

£1,695*

THIS IS THE MOMENT TO CHANGE YOUR LIFE

Discover the life-changing power of REVIV Genetics.

REVIV Genetics offers 5 distinct & comprehensive analysis types. Why wait any longer? Order your kit online or through any of our clinics, then simply...

1 Collect your DNA

2 Send your sample to our lab

3 Discover yourself

Sports & Nutrition

If you're serious about improving your sports performance you need this test in your life! By identifying your athletic profile and key factors such as muscle structure, inflammation and oxidative stress, we can help you reach your peak.

£1,195*

Nutrition

No two people are the same, meaning the foods that are healthy for one person could be detrimental for another. By understanding our personal micronutrient requirements, we can make small changes to deliver life-changing results.

£995*

Beauty

They say that beauty comes from within and it's true; the real facts about how we will age come from within our family genetics and understanding these facts enables us to take effective action to deliver visible results.

£895*
